

Croma[®] 100

Our shower

hansgrohe

Croma® 100. Our shower.

Do you take a shower to refresh yourself, to have fun, to relax, or simply to get clean?

Whatever the reason, Croma 100 offers you more:

More size – the large showerhead with a diameter of 100 mm lets the water pour down over you more expansively.

More design – with its clear, timeless shape, Croma 100 blends perfectly into any bathroom.

More functionality – thanks to a variety of spray modes, the Croma 100 matches even the most diverse ways of showering.

The Croma 100 range has the right shower for everyone.

Whether you like holding the shower in your hand, whether you want to enjoy the shower rain from an overhead shower or have a total experience with water coming from all sides – the Croma 100 shower collection makes it all possible.

Showerhead with a diameter of 100 mm
Croma 100 Multi and
Croma 100 Vario full-scale

Croma® 100 hand showers

Big and beautiful – that is how showers should be these days! Croma 100, with its large spray surface, provides an expansive, soft shower rain and its clear design with ergonomic handle and flat showerhead also goes perfectly with any bathroom, no matter what your lifestyle.

Croma® 100 Multi Hand shower

Three spray modes

By turning the spray disc you can choose between three different spray modes.

Rain

Expansive shower rain: As soft as the summer rain. The soft feel of the all-over Rain spray is a real treat.

Massage

Pulsating hydro massage: This powerful rotating massage spray relaxes your muscles and revitalises your body.

Mono

For a Kneipp spa in your own home. The clear, concentrated, gently flowing Mono spray is ideal for alternating hot and cold treatments.

Croma® 100 Vario Hand shower

Variojet system

You can vary the strength of the spray by turning the spray disc – from a soft shower rain to an invigorating massage spray.

Rain

The soft shower rain comes from all spray nozzles and efficiently moistens your skin all over.

Normal

Not too strong, not too soft – the invigorating normal spray can be used in various ways.

Shampoo

This powerful, abundant spray rinses shampoo out of your hair thoroughly and fast.

Massage

The concentrated massage spray is especially suited to focussed massage of a particular point.

Rubit®

No chance for lime scale thanks to the Rubit anti-lime scale function. Lime scale on the elastic silicone nipples can be simply rubbed off.

Shower support and shower sets

Together in perfection! Hand shower, shower support and hose are a perfect match. Also, you always have a secure hold of your shower – in any position, at any height, in the shower or the bath. The shiny chrome surfaces look fantastic and are particularly hygienic and easy to clean.

Height adjustability

By slightly turning the pin handle, you can adjust the slider to the exact height you want – shower fun for adults and little ones.

Angle adjustability

Just a twist of the hand and you can adjust the angle of the shower support to direct the spray in the best possible way. Ideal for water massage of an exact point.

Shelf

A clip adjusts the height of the chromed Cassetta'C so that shower gels and shampoo bottles are always within reach.

Shower support

In the Porter'S, the Croma 100 hand shower is always within reach, also right next to the bath tub.

Hygiene

The shower hose in shining chrome is not only an eye-catcher, but is also very easy to clean thanks to its smooth surface.

Croma® 100 Showerpanel®

What shower fun! Not only does the Croma 100 Showerpanel offer you a completely new shower experience, it is also an exclusive eye catcher in every bathroom, thanks to its uncompromisingly purist design. The height adjustable hand shower and three additional side showers with invigorating massage spray provide endless shower fun. With its slim aluminium profile and high-quality detailing in chrome, the Showerpanel fits every shower cabin in terms of both space and looks. What's more, the Showerpanel can be installed in existing bathrooms without great effort.

Height adjustability

A tailor-made shower for everyone! With the slider integrated in the slot, the height of the Croma 100 is almost infinitely variable.

Two angle adjustments

Placed horizontally, the hand shower becomes a comfortable overhead shower. It can also be positioned directly towards the body for an efficient massage effect.

Operation

The manual single lever mixer makes it easy to choose the amount and temperature of the water.

Diverter

With the diverter discreetly placed on the side, you can easily add the side showers or turn them off.

Shelf

Good-looking and practical at the same time: the chromed housing and railing.

Croma 100 Multi

By turning the spray disc you can choose between three different spray modes.

Rain

Lush shower rain: As soft as the summer rain. The soft feel of the all-over Rain spray is a real treat.

Massage

Pulsating hydro massage: This powerful rotating massage spray relaxes your muscles and revitalises your body.

Mono

For a Kneipp spa in your own home. The clear, concentrated, gently flowing Mono spray is ideal for alternating hot and cold treatments.

Side showers

With their powerful triple turbo spray, the side showers provide healthy, invigorating hydro massages.
